MILLER

Swath with a Nitro 4000 - Unsurpassed Versatility

What you've come to expect from a Nitro—and much more

MacDon D Series Draper Header

Quick & easy hook up with quick-attach

Optional quick-attach kit provides disconnect points for the boom and all hydraulic & electrical functions to allow for fast and simple attaching and detaching of boom or swather heads.

Miller Adaptor Kits Available for 4275, 4315, and 4365 Series Nitro

- Adaptor Kit for HoneyBee® Grain Belt Header:
Max width 42' (12.8m)
(kits available for Grain Belt Swather version as well)
- Adaptor Kit for MacDon® D50/60 series, Draper Headers:
Max width 40' (12.2m)

Each Miller Adaptor kit includes: the adaptor frame with leaf spring suspension for header, hydraulic hose kit and fittings, and wiring harness with wire connections for 2 working lights and transport lights (not included).

HoneyBee Grain Belt Header or Swather attachment

Cost Efficient Productivity and Versatility

Invest in one power unit for both your spraying and swathing needs. Swather adaptor kits are available for 4275, 4315, and 4365 Series Nitro sprayers.

One power unit to buy. One drive train to maintain. One set of gps guidance and steering products to install. Maximize the number of acres you cover in a year with the Nitro 4000 from Miller.

When installing a swather adaptor kit, certain completing kits available from Miller must be used.

We can supply lift arm kits with heavy duty 4" lift cylinders and two telescoping lower lift arms with cylinders and hoses. High capacity hydraulic pumps, quick attach kits, float circuit kit for boom lift arms, and power beyond or power diverter valve kits are also available.

It is advised that the high capacity pump, quick attach system, and float circuit be factory installed.

Your Productivity is Our Business

Attach a Swather, Corn Detassler, or Nitrogen Injection Toolbar & Maximize Your Nitro 4000 Productivity

Start with a Nitro 4000 Series Sprayer

Note: some attachments may be limited to installation on a 4275 and larger series Nitro. Please see your local Miller Nitro dealer for complete details.
