**NITRO**

5000 SERIES  
EXPORT MARKETS

#### OUR COMMITMENT

For generations, Miller has stood for innovation, a dedication to our customers and a drive to make them more productive. Our factory teams, dealer network and all Miller employees remain guided by these basic principles.

The Nitro 5000 series embodies the best of our beliefs. Climb aboard and see for yourself. We think you'll understand why Miller people are proud to do what they do.

Step up . . . and into your new world of spraying.

## COMFORT ZONE

*The crowning touch on a great Miller sprayer.*

### TECHNOLOGY: ONLY THE BEGINNING

You'll be immediately struck by the clean, uncluttered cab. But you'll quickly see that your productive world is at your fingertips, including the sophisticated control center which is surprisingly comprehensive yet easy to master.

The Miller Systems Monitor turns you into the master of your universe. From the reversing fan and electric rinse option pages to the foam marker and engine diagnostic pages (and many more), you'll track everything you need—without ever leaving your comfortable seat.

“Your productive world is at your fingertips.”

### SIT BACK, RELAX, TAKE CHARGE

Combining comfort with control in the Miller Nitro 5000 cab was our goal: we wanted you to feel right at home. The hours you spend here—and we know they will be many—are not going to seem quite as grueling anymore.

The premium Spray View Cab features are almost too many to list, but for starters they include:

- Grammer Evolution suede leather seat—including active suspension and head rest. It's heated and vented, too.
- Leather-wrapped steering wheel
- Bluetooth XM Radio
- Auto climate system
- And much more

Both the standard SprayView Cab and the premium version feature sophisticated Air Ride suspension, an instructor's seat, charcoal cab filtration and more.

We built the new Nitro 5000 cab for a simple reason: to make the best front boom sprayer in the industry even better.

# SEE YOUR WORLD

*Without ever looking back.*

## SAVING YOUR NECK

With the Nitro front boom, you can confidently see your work. Visibility and sight lines are so good you'll see every nozzle, from tip to tip. No guesswork or wondering if all is well, and no craning your neck to see what's happening behind you. By the end of your long days, you won't be feeling the worse for wear.

## STANDING TALL

Keeping you productive means letting you work as long as you need to—including late into the season. That's why the Nitro features a full six feet (1.8 meters) of ground clearance. And since your goal is minimum crop damage while spraying, clearance is critical, as are other Nitro features, such as its even weight distribution, outstanding traction and tight turning radius. So many variables factor into your productivity calculations. The Nitro tackles them all.

“Keeping you productive late into the season.”

# GET ABOVE IT ALL

*All-season productivity with a full 6 feet of clearance*

## A WHOLE NEW ENVIRONMENT

We know you've had plenty of days when you've felt like knocking off early—the pounding noise, the strain of looking over your shoulder, the constant stopping to check adjustments and levels—but the Nitro 5000, including the cab's creature comforts, are going to give you a whole new experience.

“Nitros are well-known for great visibility and surprising quiet. The 5000 takes it to an even higher level.”

From your comfortable vantage point in the cab, you'll confidently see everything you need to.

The rear-mount engine isolates you from distracting noise, reducing your fatigue and allowing you to focus—peacefully—on the work in front of you.

**QUIET PLEASE**

*Onboard, you'll be able to hear yourself think.*

## TURN ON A DIME

4-wheel steer option—the ultimate in maneuverability

1

Single-pass cooling system for better efficiency, cooler air flow and easy cleaning.

2

Powerful, proven Cummins engines provide not just power, but peace of mind, too.

- 1 Cooling System
- 2 Cummins Engine
- 3 Direct Drive
- 4 Weight Distribution

With 4-wheel steer option, you'll have the tightest turning radius in the business. With front and rear wheels following the same track, crop damage is minimized and headlands turning is a snap.

3

Direct drive wheel motors means more power to the wheel, fewer parts and less wear.

4

Major components carefully placed, so weight distribution is within 4% of 50-50 balance during spraying.

## GAIN TRACTION

Stop spinning your wheels. And minimize soil compaction, too.

# EASY RIDER

*Award-winning suspension = smoothest field trip around*

## **SUSPENSION IS ABOUT MORE THAN COMFORT**

The Nitro is known for its great ride, but our HydraLink™ system does so much more. It insures accurate spraying even at high speeds, less overall machine stress and better boom stability. The all-wheel suspension, connected in an X pattern, gives you a great ride in the toughest conditions, meaning you'll be covering more acres in a day—and your teeth won't be rattling at the end of it.

Boom Open	Front Axle	Rear Axle
* Tank Full	46%	54%
* Tank Half Full	48%	52%
* Tank Empty	52%	48%

Nitro 5240, 100' boom, 1000 Gal. Tank  
\* Fuel and Rinse Tanks Full, both 150 Gal.

# FLEXIBLE TO THE MAX

*With Quick Attach, you're a master of versatility*

**NO MUSS, NO FUSS**  
 Talk about maximum asset utilization.

Quickly remove the spray boom, pull up to your Miller Injection Toolbar or other attachment, hook it up and get back to work. Fast.

## HAVE IT YOUR WAY—FAST

How much can you do with a single sprayer? With the Nitro 5000, lots. With Miller Quick Attach, you can quickly swap out your spray boom for a Swather, Miller Injection Toolbar, or even an Oxbo™ corn detassler

“Maximum asset utilization”

The Quick Attach system gets right to the heart of your productivity, which means keeping your time getting ready for a new task to the absolute minimum.

# ALL ABOUT PRODUCTIVITY

*Time is money. The Nitro 5000 speeds you up.*

### GET IT DONE. YOUR WAY.

The level of built-in productivity in the Nitro 5000 is, well, huge. But your individual needs are unique, and that's why we offer so many options to help you decide just how you want to work.

- A wide, full range of booms
- Choice of tank sizes, up to the largest capacity in the industry
- Tread adjust: match your crop spacing requirements with ease
- Turn night into day with the Nitro's deluxe lighting packages
- Best-in-class Spray Controls ([details on next page](#))

### COMMAND CENTRAL:

Knowledge is power. And the intuitive, one-touch, easy-to-master Miller Systems Monitor gives you mastery over your machine by letting you keep tabs on everything you want to know.

- Electric Rinse Option
- Reversing Fan Page
- Foam Marker Page
- Complete Engine Diagnostics
- Speed displays for multiple inputs
- Customized service reminders
- Color screen, fully programmable

## SETTING THE STANDARD

Raven controllers, simply said, have proven to be the benchmark for quality, reliability and performance.

### SCS 5000

Simple, economic, reliable.

A hallmark of proven Raven functionality

### ENVIZIO AND ENVIZIO PRO II

Super convenience and functionality. Easily navigate through color screens featuring mapping and data logging, spray controls and a full range of precision options. Envizio Pro controls SmarTrax, Autoboom, AccuBoom, chemical injection and more.

### VIPER PRO AND VIPER 4

The ultimate in precision simplified. Wireless-ready computers with large color touch screens manages all your toughest and most demanding applications with ease. In addition to all the Raven Precision options, they're compatible with standard DGPS receivers. The Viper 4 features a new tablet style

interface with swiping features and horizontal or vertical orientation for the optimum in operator ease of use.
