**Miller Media Release – Condor G-Series Series wins CropLife IRON Product of the Year  
From CropLife IRON**

**Miller Wins Product Of The Year**

January 25, 2010

The Condor G-Series sprayer from Miller-St. Nazianz was named the 2009 *CropLife IRON* Product of the Year by readers of *CropLife IRON* magazine. In all, the Condor garnered more than 200 of the 500 votes cast.

“I’m honored that our Condor is so appreciated by users in the field,” said Miller’s Todd Frish, in accepting the award at the Illinois Fertilizer & Chemical Association meeting in Peoria, IL. “On behalf of Miller, I would like to thank *CropLife IRON* for this special trophy. It really means a lot to us.”

Condor G-Series sprayers are built with product tanks capable of holding 1,000 or 1,200 gallons of product. Units are also equipped with Cummins QSB 6.7-liter engines and Allison transmissions. Select models can be fitted with the Spray-Air system, helping operators to penetrate dense canopies, and SmartDrive front-wheel assist. The active suspension features air bags on both front and rear axles, along with trailing arms and anti-sway bars for increased stability, says the company.
